DETAILED ACTION

1. The Applicants' amendment filed November 8, 2006 is acknowledged.
Claims 1-6, 9-12 and 32-34 are deleted. Claims 35-36 are amended. Claims 7-8 and 13-31 are withdrawn. Now, Claims 35-36 are pending for consideration.
2. Claim rejection(s) under 35 USC 102 in the previous Office Action (Paper No. 080506) is/are removed.
3. The text of those sections of Title 35, U.S. code not included in this action can be found in prior Office Action(s).

Claim Objections

4. Claim 35 is objected to because of the following informalities:

In Claim 35 (last line), should “; and s is 1” be removed because the structure of the instant claim no longer contain the subscript s.

Appropriate correction is required.

Claim Rejections - 35 USC § 112

5. Claims 35-36 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Claim 35 recites the limitation " R'" " in line 2. There is insufficient antecedent basis for this limitation in the claim.

In Claim 35, the structure contains extra symbols of "((" and ")".

Claim 36 recites the limitation " R'" " in line 3. There is insufficient antecedent basis for this limitation in the claim.

In Claim 36, the structure contains extra symbols of "((" and ")".

6. The following is a quotation of the first paragraph of 35 U.S.C. 112:

The specification shall contain a written description of the invention, and of the manner and process of making and using it, in such full, clear, concise, and exact terms as to enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to make and use the same and shall set forth the best mode contemplated by the inventor of carrying out his invention.

7. Claims 35-36 are rejected under 35 U.S.C. 112, first paragraph, as containing subject matter which was not described in the specification in such a

way as to enable one skilled in the art to which it pertains, or with which it is most nearly connected, to make and/or use the invention.

Examiner is not able to find the basis for the specific structures recited in the instant claims, e.g., *inter alia*, Applicants are advised to show the support for all subscripts in the structures and the presence of the oxyalkylene segments.

8. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
